Education

University of Glasgow

Glasgow, UK

MSc Software Development(Merit, 2:1 Equivalent)

2024 – 2025

- **Relevant coursework:** Algorithms & Data Structures, Advanced Programming, Systems & Networks, Databases

Birla Institute of Technology and Science (BITS) Pilani

Pilani, India

B.E. (Hons.) Chemical Engineering (CGPA: 8.1/10)

Professional Summary

Motivated and detail-oriented MSc Software Development graduate (University of Glasgow, 2025) with over 2 years of hands-on experience coordinating backend software projects and automating workflows. Adept at managing technical documentation, cross-team collaboration, and version control to ensure timely and high-quality project delivery. Strong foundation in technology, project tracking, and communication, with full right to work in the UK. Looking to bring technical insight and organisational skills to a Graduate Project Co-ordinator role in a fast-paced technology environment.

Skills

Languages: Go, Python, JavaScript/TypeScript, SQL, C++

Frameworks & APIs: REST, gRPC, JWT, Playwright

Cloud & DevOps: Docker, Kubernetes, AWS (S3, SES), GitHub Actions, CI/CD pipelines, Agile/Scrum

Databases & Caching: MongoDB, Redis, ClickHouse

Observability & ML: OpenTelemetry (traces, metrics, logs), anomaly detection (Z-score, Isolation Forest, DBSCAN)

Concepts: Microservices, System Design, Feature Flags, Async Jobs, SLI/SLOs, Performance Tuning, Privacy & Compliance

Projects

TRACE-AI – Distributed Tracing & Root-Cause Engine (Dissertation) | Python, ClickHouse, OpenTelemetry | [Demo](#)

- Cut mean time to detect (MTTD) to 6.6s with 100% precision and 92.9% noise reduction in a Docker-based deployment of the HotROD microservices demo application by combining rolling Z-scores, Isolation Forest, and DBSCAN with service-graph context; average alert email delivery of 1.3s; deep-linked HTML briefs sped incident resolution.

Ticket Ease – Ticket Booking App | Django, JavaScript, HTML, Bootstrap, Stripe

- Built a movie and event ticketing platform with a Django backend and a responsive frontend, integrating Stripe for secure card payments.

Care Platform | HTML, CSS, JavaScript, React, Node.js, Express, MongoDB

- Developed a MERN full-stack web app with JWT authentication, REST APIs, and a clean UI to match care seekers with volunteers.

Experience

Eltropy India Pvt. Ltd.

Aug 2023 – Present

Bangalore, India

Software Engineer – Backend & Automation

Jun 2025 – Present

- Improved compliance interventions and reduced manual reporting effort by 40% by designing and implementing a scalable notifications system in Go microservices, including Post-Call Summaries, real-time CI alerts via Redis, and daily/weekly/monthly metric summaries via cron jobs.
- Designed Go microservices for feature toggles, enabling zero-downtime GenAI bot rollouts and cutting deployment time by 30%.
- Implemented partner-specific filter and group logic, lifting pilot customer-satisfaction scores by 15%.
- Built a Go scoring engine benchmarking 10 AI bots against live calls, trimming model-tuning cycles by 40%.
- Automated the model-change evaluation pipeline with Go scripts, Playwright tests, GitHub Actions, and Slack alerts.

Software Development Engineer in Test I

Aug 2023 – Jun 2025

- Wrote Playwright regression suites that increased test coverage by 40% and reduced post-release defects by 50%.
- Led end-to-end testing of AI chatbots and voice bots, raising customer satisfaction by approximately 20%.
- Refactored test cases into a modular framework, enabling large language models to generate Playwright scripts on demand.
- Optimised the AI-powered Knowledge Assistant, improving agent efficiency by 50%.
- Managed Jira test tracking and CI/CD integrations with custom workflows.

Regology India Pvt. Ltd.

Jul 2022 – Dec 2022

Software Engineer Intern

Hyderabad, India

- Built a Google Workspace add-on with Apps Script and REST, increasing data-entry speed by 50%.
- Automated web scraping with Python and Selenium, cutting data errors by 75%.
- Developed error-reduction utilities using PySpell Checker.

Central Leather Research Institute

Jun 2021 – Jul 2021

Research Intern

Chennai, India

- Researched sustainable waste-management processes adopted in the leather industry pilot plant.
